

For Reptiles

The complete collection of foods for all reptiles. Different reptiles have different feeding demands. This can be taken care of with Vitakraft's reptile food, which provides your pet reptile with its specific nutritional needs.

Main Food For Reptiles

MAIN OMNIVORE

This high-quality pellet mix with important animal and vegetable proteins is precisely tailored to the nutritional requirements of omnivorous reptiles. Contains natural omega-3 fatty acids as well as valuable vitamins and minerals, including vitamin D3, calcium and phosphorus for healthy bones and sturdy tanks.

- No Artificial Flavours
- Zero Preservatives
- Ideal for Water, Marsh and Box Turtles and Various Lizards

MAIN CARNIVORE

This species-appropriate mixture contains a high percentage of animal proteins in the total protein count, being a feast for all carnivorous reptiles! With valuable vitamins and minerals. Includes vitamin D3, calcium and phosphorus for healthy bones and sturdy tanks.

- No Artificial Flavours
- Zero Preservatives
- Small Fish, Various Crustaceans and Mealworms are included in the mix

MAIN HERBIVORE

Herbivore reptiles are the best fit for this delicious green feed mixture, with raw fiber-rich alfalfa, tasty meadow grass, aromatic herbs and fine flowers. Contains valuable vitamins and minerals, including vitamin D3, calcium and phosphorus for healthy bones and sturdy tanks.

- No Artificial Flavours
- Zero Preservatives
- Without Synthetic Colourings

SNACKS CARNIVORE

A delicious natural food and snack for reptiles and turtles. For a healthy growing shell and bone structure, essential natural minerals and protein-rich Gammarus crabs are included in the mix! Suitable as a snack and nutritional supplement for carnivore reptiles!

- No Artificial Flavours
- Zero Preservatives
- Without Synthetic Colourings
